GIRL SHOT DEAD BY POLICEMAN

Victim Had Inherited Money and Refused to Marry the Man Who Killed Her-Tragedy on Chicago Street.

CHICAGO, Feb. 27.-Daniel Herman a Chicago policeman, shot and instantly killed Miss Minnie Mulveil on the street to-day. Miss Mulveil was a substitute teacher in St. almes Parochial School, although she had inherited a lot of

money.

While walking home from school she spoke together for some time and fin-ally angry voices were heard. Herman was seen to draw a revolver, point it directly at the girl and fie. Mits Mul-vell fell dead on the sidewalk. Herman

The tragedy occurred on Michigan Boulevard, immediately in front of the palatial residence of Harlow N. Higginbotham, who was president of the Chicago's World's Fair. Policeman Herman served on President Mo-Kinley's bodyguard during the last visit of McKinley to this city.

Miss Mulvell was twenty-three

Miss Mulveil was twenty-three years old and a daughter of John Mulveil, who died several years ago, leaving an estate of \$150,000. Her uncle, William Mulveil, died last year and left an estate valued at \$70,000. Miss Mulveil, one of the heirs, was fade executrix.

That the shooting was caused by the young woman's refusal to marry Herman was the statement of John C. Schubert, an intimate friend of the Mulveil family.

"Herman has for a long time been ersecuting Miss Mulveil," said Mr. Schubert. "She often told me that she hated to go on the street, and that it seemed as if Herman spent his time watching the house. Try as she would she could not get rid of the man. Once she told me that Herman stopped her can the street and threatened to kill her if she would not marry him."

Herman was never received at the Mulveil home, it is said.

Investigate the Murphy Contracts!

There should be an immediate and searching legislative inquiry into the amazing facts printed plainly in yesterday's Sunday World concerning the New York Contracting and Trucking Company, a hitherto inconspicuous organization of ex_saloon_keepers that has suddenly become the master hand in the control of contracts having their birthplace in the granting of Public Franchises.

Has a new "system" been devised whereby the profits due the people from the exploiting of their own property can be safely and "legally" transferred to the pockets of a coterie of crop-eared politicians and their cunning and partly respectable backers? It would seem so!

Let us get to the bottom of this business! Let us find out who the real people are behind all this jugglery and jobbery. Who is making the money? How much is being made? The Pennsylvannia franchise was sold for a song-after ten months spent in the selling. But for a falling out among rogues the gigantic gas privileges would have been made more gigantic and absolutely perpetual. Let us learn the real cause of the crushing of the Port Chester road and the creation of the Westchester Company ! Get to the bottom. Get there now !

We were once told by a very eminent and rather honest lawyer in the employ of the Rapid Transit Commission that John B. McDonald was able to underbid the rich Onderdonk Company by \$5,000,000 for the Subway contract because his "political arrangements" were "more economical." Perhaps this new "system" produces the "economy." Again, let us find out! "Graft" acquired according to law is morally no better than when it was called "boodle" and men were sent to jail when caught with the goods on!
